

Learning Project WEEK 5 – Environment-online

Age Range: Y5/6

Weekly Maths Tasks (Aim to do 1 per day)

- Get your child to play on [Times Table Rockstars](#). If your child works on [Numbots](#) in school, they can access this with the same login.
- Daily [arithmetic](#) for different areas of maths. Ask your child to work on level 5 and 6 activities and get them to practise something they find difficult.
- Ask your child to show everything they know about equivalent fractions, decimals and percentages.
- Challenge your child to select items in your house (this could be rubbish, materials, household objects) and sort them into things that are recyclable and non-recyclable. What percentage and fraction of items are recyclable?
- [Matching decimals, fractions and percentages game](#) – Level 1 and Level 2.
- Continue to develop your [reasoning and problem solving skills](#) by practising these puzzles. There are lots to choose from and some are more challenging than others!
- Daily [Maths Lesson](#)
The above site also has daily Maths lessons which can be accessed online.
These are available for Y5 and for Y6.
- [BBC daily Lessons!](#) – New, year group specific lessons – Maths, English and a Foundation lesson.

Weekly Reading Tasks (Aim to do 1 per day)

- Ask your child to read a chapter from their home reading book or a book that they have borrowed from the library.
- Following this, ask your child to summarise the events from the chapter. They could bullet point what happened, create a comic strip or present the information in their own creative way.
- Encourage your child to note down any unfamiliar words from the chapter they have read. Explore the meanings of these words by using a dictionary, reading around the sentence or using print conventions.
- Challenge your child to read something around the house that isn't a book. They can then complete their reading diary following this.
- Your child can log on to [Oxford Owl](#) and read a book that matches their book band. After this, direct your child to review the text and justify their opinion with examples from the text.

Weekly Spelling Tasks (Aim to do 1 per day)

- Practise spellings on [Spelling Frame](#).
- Ask your child to mind map a list of adverbials that they could include in their story. Ask them to think about which adverbials will suit their story genre?
- Get your child to proofread their writing from the day. They can use a dictionary to check the spelling of any words that they found challenging. This will also enable them to check that the meaning of the word is suitable for the sentence.
- Look at the Y5/6 spelling words
- Look at the Y5 or Y6 spelling words.

changeable
noticeable
forcible
legible
dependable
comfortable
understandable
reasonable
enjoyable
reliable
possible
possibly
horrible
horribly

Y5 Spellings:

Adverbials of time	yesterday
	tomorrow
	later
	immediately
	earlier
	eventually
	recently
	previously
	finally
	lately

Y6 Spellings:

Words that can be nouns or verbs	produce
	present
	reason
	silence
	support
	transport
	surprise
	scratch
	freeze
	balance

Weekly Writing Tasks (Aim to do 1 per day)

- Writing idea – journal/diary, continue the story, newspaper report
You may want to include sketches/drawings!

A rumbling noise from space got louder and louder, leaving a trail of multi-coloured dust behind it. With an almighty crash, that sent shockwaves around the village, all the car alarms screamed.

Out of all the places for it to land in the world, it had to land in Alex's – a child who was fascinated by aliens, a child who was always told off at home for annoying her parents with her over imaginative ideas, a girl who was always told off in school for 'making up' stories of alien worlds and scaring other children (and the teachers!) Instantly jumping out of bed and pressing her face against her window, Alex's eyes widened as she saw the object lying there in her garden.

Within seconds, she had grabbed her 'Alien Observation and Collection' bag, put on her home-made anti-alien suit and slid down the drainpipe on to the patio.

(You can change the names!!!)

Ideas – continue as a story OR

- Write a newspaper report OR
- Write a journal/diary with sketches

What was it? Describe – colours, shape, materials, did it have strange engravings on it? Does it make a noise? Is there something inside it? Who finds it? Who else saw it? Are there people after it?

Newspaper – did someone 'think' that they saw it? (they may make things up just to be interviewed and get on tv!!!)

- Explain to your child that they must write a persuasive letter to their headteacher about the importance of recycling at school. Get them to research the impact of recycling using books or the internet to find facts and statistics to support their argument.
- Your child can write a biography about David Attenborough. Remind them to include information about his life, how he has helped the environment and the positive impact he has had on global changes.
- **SeaWorld should close.** SeaWorld is a theme and marine park based in Orlando, America. It is home to giant turtles, orcas and bottlenose dolphins to name a few. Does your child agree/disagree with the above statement? Ask them to write a discussion based on the above statement considering both sides of the argument.
- **Story Task:** Your child has now written the opening of their story. They can continue writing their story thinking carefully about the range of conjunctions, pronouns and adverbials that are most suitable.
- **BBC daily Lessons!** – New, year group specific lessons – Maths, English and a Foundation lesson.

Learning Project - to be done throughout the week

The project this week aims to provide opportunities for your child to learn more about the environment. Learning may focus on changes to different environments, the impact of humans on environments, climate change etc.

Endangered Species- The tiger, Amur leopard, orangutan, sea turtle and the Sumatran elephant are some of the most endangered animals on the planet.

<https://www.bbc.co.uk/bitesize/articles/z7gn92p> BBC bitesize explores five British animals on the edge of extinction. Ask your child to choose an animal and ask them to consider how their chosen animal may need to adapt due to the current environment and human threats it faces. Create an informative leaflet about the threat the animal faces and what humans can do to minimise these threats.

Upcycling, upcycling- Encourage your child to choose an item within the house that they do not really use anymore - this could be an old item of clothing, accessory or household item - and upcycle it to make a new item that they will use. Ask them to evaluate the product and identify any areas that they could improve if they were to make it again. They may even want to write a set of instructions so that other people can upcycle the same item too. <https://www.onegreenplanet.org/lifestyle/fun-upcycling-projects-that-are-perfect-to-make-with-kids/>

Protecting our Oceans- Marine life faces a number of threats including plastic pollution, tourism, habitat destruction, ocean warming and overfishing. How can we make a difference now? <https://www.sas.org.uk/our-work/> Have a look at surfers against sewage and see what has been achieved and what work they are doing now. Afterwards, they may wish to sketch an image of an ideal ocean environment. Encourage them to use websites and books to find out what makes the best environment for marine life to flourish (you may wish to direct them to the Great Barrier Reef and its significance).

Do People Intentionally Damage an Area? - Ask your child to imagine that a new park, housing development, restaurant or other structure is being built on green land near their home. How might this be positive for the environment? How might this be negative for the environment? Create a poster that explains the pros and cons of this new development. Consider wildlife, air and noise pollution and jobs.

Dark skies in Cornwall. <https://www.cornwall.gov.uk/darksky> watch the film about dark skies designation for Bodmin moor and think about how it helps us and animals. If it is a clear night, why not spend some time looking at the stars. You may be able to find some constellations. Create an artwork (maybe with words) in response to observing the night sky.

Additional learning resources parents may wish to engage with

Classroom Secrets Learning Packs - These packs are split into different year groups and include activities linked to reading, writing, maths and practical ideas you can do around the home.

Twinkl - to access these resources click on the link and sign up using your own email address and creating your own password. Use the offer code UKTWINKLHELPS.

Headteacherchat - This is a blog that has links to various learning platforms. Lots of these are free to access.

BBC daily Lessons! – New, year group specific lessons – Maths, English and a Foundation lesson.
