Curriculum Rolling Programme - Reception

Our curriculum is heavily based on the children's interests and is not a linear process. Optimal learning occurs from those opportunities that are of high interest to the children. Individual Tapestry journals evidence a discrete curriculum that differs between each child. This plan seeks to inform of the adult input sessions across the year and may take a different direction dependent on the interests of the children or important events that may be occurring in our community around us.

	Where did the story take place? Who are the main characters? What does the main character look like? Can you show me the front cover?	What is the book about? From whose point of view is the story told? What is happening? What might this mean? Which part do you like best? Why?	Can you think of another story that is similar? Have you had any similar experiences? Which stories have openings like this? Can you think of another author who writes in a similar stule?	How do we know that is feeling sad? Why did the author choose these words? Can you explain why?	Which text/story is better? Why? Why did the character make that choice? What will happen in the end?	If you were the main character, how would you have felt? Can you think of a new ending? NELI
